## President's Message

Dennis Cathcart presented a great program on lithophytic bromeliads. He took us to almost every country in South America via a power

point presentation. It's amazing how many places Dennis has been and some of the places were previously unexplored. In addition to being a great explorer, he is also a great photographer. Dennis is able to give a detailed travel log of his trips. When it was over, you had the benefit of being there minus the ant bites, the mosquitoes, the snakes, the mud slides, the rain, flooded rivers, the washed out roads, and the foreign vehicles. Great job, Dennis!

We have been having a great raffle table for the past few months. You are to be commended for your generosity in sharing your plants. It gives the new members a chance to go away with an arm full of bromeliads to build their collection. Now let's beef up our Show and Tell Table. I know most of you have nice plants that you could bring in either in bloom or are rare, or unusual. Some of our most fun times have been when someone brought in a plant that didn't grow like it should. We have all had that to happen and we can really relate when things seem to go wrong!

When you bring in your plants for raffle, show & tell or sales, always make sure that they have the proper tag, are free of disease and have clean pots. Please be sure and help us keep the Federation building clean by taking a wet cloth and clean all the dirt off the pots. We have a really nice building to meet in so let's keep it clean. After all, it is our own members that do the cleaning when the meeting is finished. Thanks for your help in doing your part.

**SAVE THE DATES:** Please put April 16-18, 2010 on your calendar so you can assist us with our 2010 Show. The Show will be in conjunction with the Tampa Federation of Garden Clubs and will be held at the building where we meet monthly.

Start selecting some bromeliads that you think will be Blue Ribbon winners and give them lots of TLC and care over the coming months as you get them ready to enter the spring show. We are beginning to organize our committees so that we will be well prepared for the Show. Please be willing to say yes if asked to help with a committee. Shows are always a lot of fun, a great learning experience, and a chance to get to know some really neat BGTB members by working together on projects for the Show. We will be bringing you more information in the coming months as we plan the Show events.

**2008 Show Stage with theme, “What a Beautiful World”**

Exciting Upcoming Fall Meetings: Our Speaker for September is Jay Thurott, Chemist; October is Bruce Holst, Director of Plant Collections & Research Library of Marie Selby Botanical Gardens; November speaker is Dr. Terrie Bert, Marine Biologist for the State of Florida; and December will be the grand finale for the year with our Christmas Party and auction.

You don't want to miss any of these programs!

Visitors are always welcome so invite your friends, neighbors, and relatives.

See you at the meeting,  
Tom Wolfe, President
