## President's Message

Our many thanks go to Dennis Cathcart for the wonderful presentation he gave us on the work that has gone on and is continuing to go on for the new botanical garden in Singapore, "Gardens by the Bay". His narration was very interesting and informative and the pictures and video were beautiful. Dennis is very much involved with this massive project due to open in November, 2011. Tropiflora nursery has sent thousands of plants and trees over there for the gardens. And, yes, Tropiflora still has plants to sell to us.

As most of you know we are planning a bus trip for our club members on November 6 to Michael's Nursery in Venice, Tropiflora Nursery, and if time permits, Selby Gardens in Sarasota. Dennis Cathcart wants to fix a bar-b-que lunch for us if he gets his large bar-b-que shed repaired. The bus will hold about 55 people and there is room in the storage compartment to put our plants. We will have more info for you at the next meeting. We haven't had a field trip for the club in a while, so let's make this a fun trip.

Respectfully yours,  
Beverly Sisco, President

## BGTB Program

Monday, September 20, 2010

Speaker: Al Muzzell, Gainesville, Florida

Al has a bromeliad business in Gainesville, Florida where he sells out of his greenhouse and at bromeliad events around the State. He has been collecting bromeliads for many years and has a thorough knowledge of the plant family.

This month, Al will be talking about some of the terrestrial types of bromeliads such as Dyckia, Hectia, Deuterocohnia, Orthophytum and Pitcairnia. These are some of the genera most of us know very little about. If you have some of these, bring them to Show and Tell to share with the members.

Don't miss this one! See you there.

Tom Wolfe, Program Chair

## **WORLD CONFERENCE 2010 NEW ORLEANS, LOUISIANA**

by Tom Wolfe

Tampa Bay Guild was represented at the World Conference in New Orleans with Marilyn and Steve Byram, Bob and Paula Benway, Herb Hill, Mike O'Leary, Dave Johnston, Randy and Denise Garcia and Randy, Jr., and myself. I'm sorry so many of you missed the 2010 World Conference, "Bromeliads in the Big Easy." The Astor Crowne Plaza Hotel was very nice and easy to get to unless you were bringing in a load of bromeliads through the freight entrance. The speakers were great, the food was delicious, the vendors all did very well and the home tours were a lot of fun and interesting to see how folks grow plants in Louisiana. The rare plant auction netted \$12,000.00 with a Neoregelia hybrid made by Ray Coleman which sold for \$1,200.00. The only disappointing feature was the Judged Show, which was very small for a world conference. Most pleasurable was meeting and fellowshipping with old as well as new friends from around the world which is always the highlight for me.

On Wednesday afternoon, the keynote speaker, Dr. Gregory Brown, from the University of Wyoming, spoke mostly on Marie Selby Botanical Gardens. He had a very positive presentation concerning Selby's financial condition and the latest completed projects and the ones that are slated for the near future. This was followed by an outstanding buffet supper. The next three days flew by with looking, buying, learning and in general having fun. The conference culminated with a banquet of delicious food and fellowship.

I hope all of you plan to attend the next world conference and plan to stay at the host hotel as that is where the action is and you have a much better chance to meet people and attend the functions.
